

Make your own...

... Gracie!

- Print on heavyweight paper or lightweight card (160gsm is perfect) - experiment with print sizes, the little ones are cute!
- Cut carefully around the outline of the camper and the tabs, and then fold along the black lines.
- Glue the tabs with a glue stick and assemble the camper.
- Cut around the wheel cover and glue the tabs onto the front of the camper.

..now Gracie could do with some company - how about making the rest of the SnailTrail fleet?
